

Philips Series 2000i  
Air Purifier

Remove 99.97% particles@3nm

Allergens display  
Up to 79 m<sup>2</sup>/ 850 ft<sup>2</sup>  
Auto, Sleep mode & app

AC2889

## Intelligent purification

Connect to cleaner air

Purifier Series 2000i automatically monitors and purifies the air - then gives real-time air quality feedback via the display and connected App. Also use the App for outdoor air quality and allergy management advice. Ideal for living room.

### Superior purification

- Reduces allergens, gases, odors
- Captures 99.97% of particles that pass through the filter

### Intelligent purification

- Automatically monitors, reacts & purifies the air
- Visualized air quality feedback
- 3 auto modes & 5 manual settings, incl. quiet sleep setting
- Unique allergen mode

### Long-lasting performance

- Ideal for medium to large rooms

### With Air Quality App

- Track indoor and outdoor air quality
- Allergen management advice
- Control purifier from anywhere

## Air Purifier

Remove 99.97% particles@3nm Allergens display, Up to 79 m<sup>2</sup>/ 850 ft<sup>2</sup>, Auto, Sleep mode & app

# Highlights

### Superior purification

With cutting edge sensing and purification technology, the Philips Air Purifier Series 2000 is proven to reduce allergens, odors, VOCs and even certain bacteria. The pre-filter and True HEPA filter remove particles. The Active Carbon filter reduces gases and odors.

### 99.97% filtration

Designed with a multi-stage active filtration system, which captures up to 99.97% of particles that pass through the filter as small as 0.3 microns – the size of most common airborne allergens, particles, bacteria and viruses.

### AeraSense technology

## AeraSense

Benchmarked against a professional-grade sensor, Philips AeraSense technology is highly effective in sensing even the slightest change in indoor air conditions. It continuously monitors the air and automatically adjusts the fan speed when it detects a change in particles.

### Visualized air quality

In real-time, AeraSense shows you the air quality data via a numerical display and a color ring on the dashboard of the air purifier. The numerical display from 1-12 is an index of the indoor air quality, where 1 is good and 12 is polluted air. The color ring provides an additional visual cue, ranging from blue (good allergen & particle level) to red (bad allergen & particle level).

### Multiple settings

The Philips Air Purifier Series 2000i has 3 automatic purification settings: a General mode, an extra-sensitive Allergen mode, and an extra-powerful bacteria and virus mode. In addition to the 3 auto modes, the purifier also has 5 manual modes. Choose one of five different speed settings: from the extra-quiet 'Sleep' mode to the extra-powerful 'Turbo

AC2889/10R1

Speed' mode. Pick one that is ideal for your required purification.

### Unique allergen mode

The Allergen mode of the Philips Air Purifier Series 2000i is ideal for those with high sensitivity to allergens. At the heart of this mode is a unique, always-alert program that detects and reacts to potential allergen risk, and auto-powers the airflow to immediately reduce the allergen exposure.

### Ideal for living room

Best purifier for your medium to large room (or living room) with an applicable room size at 79m<sup>2</sup>.

### Track your air quality

Use the App to check your indoor and outdoor air quality. The Air Purifier constantly feeds indoor air quality data to the App, which is then combined with outdoor pollution and pollen data to give you a complete picture of your air quality.

### Allergen management advice

Based on the indoor and outdoor air quality levels, the App will give you advice to help you with your allergen management regimen.

# Specifications

## Performance

- Room size: 79 m<sup>2</sup>
- CADR: 333 m<sup>3</sup>/h
- 0.3µm particle removal: 99.97 %
- Ultra fine particle removal: 20 nm
- Recommended HEPA life time: 4800 hour(s)
- Recommended AC life time: 2400 hour(s)
- Sound Power: 32-64 dB(A)
- Sound Pressure: 20.5-52 dB

## Features

- VitaShield IPS
- AeraSense technology
- Air Quality feedback: Numerical
- PM2.5 sensor
- Modes: 3 auto modes
- Aerodynamic design: 3 inlet
- Fan speed: 5 settings
- Healthy air lock & Alert
- Timer: 12 hour(s)
- Motor: DC

## Design and finishing

- Color(s): White
- Color of control panel: Black 7 C
- Control panel type: Button

- Material of main body: ABS
- Material of deco ring: PMMA

## Technical specifications

- Voltage: 220-240 V
- Frequency: 50/60 Hz
- Cord length: 1.8 m
- Power: 56 W

## Weight and dimensions

- Weight of product: 7.7 kg
- Weight incl. packaging: 9.3 kg
- Dimension of product (LxWxH): 359\*240\*558
- Dimension of packaging (LxWxH): 412\*294\*612 mm

## Replacement

- Particle filter: 883442230770
- AC filter: 883442030770

## Country of origin

- Made in: China

## Sustainability

- Packaging: > 90% recycled materials
- User manual: 100% recycled paper
